## Powell Blasts Rumors of 'Deal' By Stratton, Daley

### Says Downstate Will Have No Part in Report

Rumored Deal Said Planned to Insure Stratton's Re-Election

SPRINGFIELD (UPI)—State Rep. Paul Powell today served notice that downstate Democrats will have no part of any "deal" between Cook county party leaders and Gov. William G. Stratton in 1956.

Powell, of Vienna, said "I can't believe that the leaders of our party in Cook county would do such a thing."

"If they do, I'll be the first to take a gun and run them right out of the state," he said. "They don't belong in the Democratic Party."

Powell referred to rumors that Chicago Mayor Richard J. Daley and Stratton might strike a deal to insure Stratton's re-election and a Democratic sweep of Cook county in 1956.

He spoke Tuesday at a meeting of downstate Democratic county chairmen state central committee men and legislators held to drum up business for the party's \$100-a-plate dinner in Chicago Nov. 19.

Both Stratton and Daley have denied the rumors which have been current since the 1955 legislative session in which they agreed on a revenue program for the state and a

"The rumor is out," Powell said, "and I want to say downstate Democrats don't intend to be a part of any deal against any candidate in the Democratic Party."

Says Barrett Strongest

Powell also told a newsman he still regards Cook County Clerk Edward J. Barrett as the "strongest possible candidate" for governor in the state. Barrett said in Chicago Tuesday he does not intend to run for governor.

Powell himself has been mentioned as a possible candidate for any of three offices, governor, lieutenant governor and U. S. senator.

He has said he will run only for re-election to the House.

Several other possible candidates for state ticket positions attended the meeting.

Rep. Richard Stengel, Rock Island, who has been mentioned as a possible candidate for U. S. senator, said it was "too early" for him to decide whether he will run but that he has "not decided not to run."

Also present were Michael J. Howlett, Chicago, former campaign manager for Sen. Paul Douglas, and a candidate for the nomination for secretary of state; John R. Asher, Paris, who said he will seek the nomination for lieutenant governor; and Rep. Clyde L. Choate, Anna, who has been mentioned as a potential candidate for state treasurer.

### 7 HTHS Seniors Take Exams for Scholarships

Seven students at the Harrisburg Township high school were among 50,000 outstanding high school seniors who took their first tests today in the nation's newest and richest scholarship program.

They were Avah Phillips, Norma McDonald, Delores Wallace, Dorothy Schneider, Jack Klein, Mary Matthews and Marilyn Geltosky, all on the eligibility list of the Honor society which is sponsored by H. B. Bauman.

The program is sponsored by the National Merit Scholarship program, founded recently with grants of 20 million dollars. The merit group and two associated scholarship programs will spend two million dollars on 350 college scholarships next year.

Students taking today's tests were chosen by their principals as the most promising five per cent of the senior class.

The test in 10,000 schools throughout the country will cut the list of entries down to 4,000 who will take another examination later.

### Gov. Stratton Escapes Injury In Auto Collision

ATLANTA (UPI)—Gov. William G. Stratton and six other persons escaped injury Tuesday night in a two-car collision on U. S. 66 near here.

Damage was limited to the fenders of both cars.

Stratton, Robert Patton, chairman of the Illinois Youth Commission, and William W. Downey, the governor's administrative assistant were returning to Springfield from a tour of youth institutions when the governor's limousine collided with a car driven by Miss Audrey Peasley, 16, of Heyworth, McLean county, police said.

Stratton's driver, State Police Lt.

Leonard E. Wertz, said both vehicles were southbound approaching Atlanta when Miss Peasley signalled to make a left turn, then swerved to the right into the path of the governor's car.

Atlanta is 30 miles northeast of Springfield.

### Godfrey Fires Three; Others May Also Get Ax

NEW YORK (UPI)—Arthur Godfrey's storm-tossed ship, suffering from three new losses in its crew, wobbles onto TV channels tonight in the face of reports that more heave-ho's may be on the way.

Godfrey, the fiery-tempered emcee of the airwaves, applied the ax to three members of his "Talent Scouts" crew Tuesday — producer Larry Bresler, musical conductor Jerry Bresler and announcer George Bryan.

The dismissals followed the surprise pattern of other Godfrey oustings of such performers as Julius La Rosa, Marion Marlowe, Archie Bleyer and the Mariners.

The firings came without notice while Godfrey was preparing for tonight's TV program at the Pennsylvania National Horse Show in Harrisburg.

Godfrey commented today in Harrisburg, "I've said before that I'm running this job and when I can't hire and fire I'll quit." Asked about his show's slipping rating, Godfrey said "when you're in the top 10, there's only one way to go down."

There were reports that singer Lu Ann Simms might be the next victim of Godfrey's wrath. Miss Simms, who took six weeks leave from the Godfrey family after giving birth to a daughter, has not received definite word from Godfrey that she'll be back on his show.

Miss Simms' husband, Lorring Buzell, said: "Her vacation is up on Nov. 1, but we haven't heard from Godfrey yet. We should know one way or the other by next week."

There were reports, too, that the McGuire Sisters, a singing trio with the Godfrey menage, might be endangering their position by their extensive entertaining activities outside the show.

### Mine Teams Expect to Reach Fire Thursday

WALTONVILLE, Ill. (UPI)—The progress of mine rescue teams toward a coal mine fire was halted temporarily today.

The teams stayed out of Orient Mine No. 3 to permit a change in air circulation. A member of a mine rescue team said the crews have gotten within 900 feet of the fire that began 15 days ago.

The teams expect to get to the actual fire, or whatever is left of it by Thursday. So far, the teams have reported no smoke, no heat, and no cave-ins along their route to the fire zone. It is believed the fire is reduced to the smoldering stage.

The rescue teams have advanced on the fire by building air locks behind them to keep oxygen from the fire zone. The teams now have reached what is considered the fire stage.

Rescue teams from Springfield, Benton and Herrin will go into the mine at 8 a.m. Thursday to resume their operations. The Du Quoin and Eldorado teams will take over from 4 p.m. to midnight.

The Freeman Coal Co. owns the mine, which is the largest in Illinois.

## The Washington Merry-Go-Round

By DREW PEARSON

DREW PEARSON Says:  
Strobel Conflict-Of-Interest  
Case Rivals Talbott Situation:  
Strobel's Engineering Clients  
Get GSA Contracts; He Says  
Brownell Condoned His Out-  
side Interests.

WASHINGTON — A new conflict-of-interest case similar to that which forced the resignation of Harold Talbott as secretary of the Air Force has come to the surface in the Eisenhower administration.

It involves Peter Strobel, who is in charge of the government's multimillion-dollar buildings, including the construction of new buildings, care of old buildings, and the \$150,000,000 program of leasing land and buildings from private individuals. Next to the big dam and harbor contracts of the Army Engineers, the AEC, and the big contracts of the Defense Department, he hands out the largest construction jobs in government.

Strobel, this column first revealed on September 1, has been running an engineering consultant firm on the side. This was what Harold Talbott did when secretary of the air force.

Since then, more digging has disclosed that Strobel went further than Talbott. On one occasion he actually approached the Army Engineers and asked them to increase the fee paid to his own personal firm. This was a contract let before he entered the government, but he stormed into Army Engineer headquarters and demanded \$7,500 extra for Strobel and Salzman. He finally settled for \$3,000.

He has also recommended companies doing business with his own engineering firm for government contracts; and has also hired architects to design public buildings on the say-so of GOP politicians with whom he has had contacts.

One is his claim that Attorney General Brownell knew about his on-the-side engineering business and advised him that it did not violate the conflict-of-interest statutes. Brownell sponsored Strobel for his job in the Eisenhower administration. In the Talbott case, Talbott asked Brownell's opinion on his conflict of interest and Brownell refused to give an opinion.

Also it develops that John Minor Wisdom, No. 1 Republican kingpin of Louisiana, picked the architect to design the new \$11,000,000 post office for New Orleans. The post office building comes under Strobel's jurisdiction and he is supposed to pick the architect according to merit. However, Wisdom did the picking and was quite blunt in asking at least one architect how much he would contribute to the Republican party out of the \$200,000 architect's fee paid for designing the New Orleans post office. Strobel took the Wisdom choice.

Despite this oath, he recommended some of his firm's clients to design the new \$50,000,000 Central Intelligence Agency headquarters. CIA and GSA are still disputing, however, which agency should build the new headquarters. This column has also uncovered evidence that other Strobel customers have received GSA contracts.

Strobel refused to submit a list of his engineering firm's clients to his superiors, so they could check the names against government contracts, until this column's exposé of September 1. After that, however, he did so.

This column tried to contact Strobel before publishing its Sept. 1 report. Failing to reach him, his secretary, his assistant, and his immediate superior, Mr. Mansure, were interviewed. Afterward, Strobel bitterly complained that he wasn't given a chance to tell his side of the story. Again this column invited him both by letter and telephone to give his version of the facts. He promised to arrange an interview, but never did. Before today's column was written, Strobel was invited a third time to comment. His secretary phoned that he was too busy and had to catch a train. It was learned, however, that he was in a rush to get to his New York home for the week end.

CELLER INVESTIGATES  
Meanwhile, the House Judiciary subcommittee chairmanned by Congressman Celler of Brooklyn has looked into Strobel's case, and has plans to question him on some interesting and important personalities with whom he has had contacts.

One is his claim that Attorney General Brownell knew about his on-the-side engineering business and advised him that it did not violate the conflict-of-interest statutes. Brownell sponsored Strobel for his job in the Eisenhower administration. In the Talbott case, Talbott asked Brownell's opinion on his conflict of interest and Brownell refused to give an opinion.

Also it develops that John Minor Wisdom, No. 1 Republican kingpin of Louisiana, picked the architect to design the new \$11,000,000 post office for New Orleans. The post office building comes under Strobel's jurisdiction and he is supposed to pick the architect according to merit. However, Wisdom did the picking and was quite blunt in asking at least one architect how much he would contribute to the Republican party out of the \$200,000 architect's fee paid for designing the New Orleans post office. Strobel took the Wisdom choice.

Congressman Celler wants to probe this also.

Note—Strobel, born in Denmark,

came to this country under the name of Hansen, but changed his name as a young man. He first came to public attention as the chief structural engineer for the 1939 New York world fair.

WASHINGTON WHIRL

Republicans are bracing themselves for an "I won't run" statement from President Eisenhower.

Tip-off came from White House aide Gabriel Hauge, who told a private group: "We are trying to disengage the Eisenhower personality from the Eisenhower program."

Hauge also reported

significantly that the stock-market drop following Ike's heart attack was caused chiefly by the withdrawal of European investments.

This is a sign that European faith

is pinned largely on Eisenhower's personal leadership.

T. Cole

man Andrews' resignation as the nation's tax chief can be laid at the door of assistant president Sherman Adams. Commissioner Andrews had a high-and-mighty attitude when dealing with other department heads. He made the mistake, however, of taking this attitude with the powerful Adams.

The same attitude also lost Andrews the support of his sponsor, Virginia's Sen. Harry Byrd.

Andrews sent Byrd a couple of brush-off letters in answer to routine queries.

# Britain to Hike Taxes, Reduce Gov't Spending

LONDON **AP** — Chancellor of the Exchequer R. A. Butler told Britain today that taxes will be increased and government spending cut in an effort to halt rising inflation.

Butler gave the country the bad news when he went before the House of Commons and read the details of a mid-year emergency budget.

The decision to raise taxes had been expected. But its disclosure brought angry reactions.

The Labor Party planned to launch a furious attack against prime Minister Sir Anthony Eden's government in the three-day debate to follow.

Sir Bernard Docker, head of a 158-million-dollar industrial empire, said beforehand he would sell his holdings and flee abroad in his yacht if taxes went any higher.

Butler said there was "excessive demand" for goods at home. The pound had been weakened abroad by "rumors and speculation about future parity of sterling."

"This uncertainty coincided with a significant degree of internal inflation and rising personal incomes," he said.

As a result, he added, Britons have been buying too much at home and not exporting enough to maintain gold and dollar reserves.

## Fire Destroys Part of Jonesboro Grade School

JONESBORO, Ill. **AP** — Fire of undetermined origin destroyed part of the elementary school in Jonesboro early today.

The fire broke out about 3 a.m. and destroyed an old classroom building, the gymnasium and the heating plant.

Smoke caused some damage to a new section of the school which was near but not connected to the older buildings. However, the heating plant destroyed by the blaze also supplied heat to the new building and classes have been called off there until a new means of heating the building is set up.

An estimate of the damage was expected later today after an insurance adjuster completes his investigation.

School officials did not announce immediate plans for resumption of the classes. Several churches and a veterans' organization offered space for temporary classes.

## New Orleans Smog Conditions Affect Asthma Sufferers

NEW ORLEANS **CPI** — Two asthmatic patients died and more than 200 others were treated at hospitals between midnight and dawn today as atmospheric conditions, including smog, touched off one of the worst conditions for asthma sufferers in many years.

A Charity Hospital doctor described the condition of the patients as "unusually severe" and said the rush in the emergency room was "the worst in memory." Dr. George Ramsey of the Charity Hospital emergency staff, said the attacks suffered by the asthma victims were severe and added:

"It's a miracle we didn't lose more."

The dead were identified as Jules Glapion, 65, and Joe Adams, about 60.

## Two U.S. Jets Collide In Japan; Airmen Killed

TOKYO **AP** — Two American jet planes collided 7,000 feet over southern Japan Tuesday, killing a U.S. airman.

The Far East Air Force said the pilots of the two T-33 jet trainers parachuted to safety. The victim was the passenger in one of the planes.

### Meany Attacks Pilots Ass'n

CHICAGO — AFL President George Meany attacked the Air Line Pilots Assn. today for letting its members replace flight engineers who are striking against United Air Lines.

Meany sent a telegram from New York to Clarence Sayen, president of the AFL pilots' union, in which he charged "collusion" between the pilots and the airline company.

Pilots have been crossing picket-lines and filling in for the striking engineers "in clear violation of all trade union principles," he said.

Meany warned that the pilots' union is in danger of expulsion from the AFL unless it stops its practices.

The AFL flight engineers union has been on strike against United for four days. Pilots and ground crew personnel have stuck to their jobs, however, and a UAL spokesman said the line is maintaining 95 per cent of its normal mileage.

About 500 engineers walked out in opposition to a company rule that all flight engineers must be qualified pilots.

### Taxpayers Win First Round Against Use Tax

SPRINGFIELD — The first round in the long-expected court fight against Illinois' new 2½ per cent use tax has been won by the taxpayers.

Circuit Judge Du Witt S. Crow Tuesday granted a temporary injunction sought by two firms to prevent the state from disbursing use taxes paid under protest pending a hearing on the validity of the law.

The injunction requires the Illinois Revenue Department to notify the treasurer of all taxes paid under protest and the treasurer to keep such payments in the state protest fund.

The injunction was granted the Texas Co. and the Texas Pipe Line Co. in their suit filed Monday to challenge the constitutionality of the new tax.

Crane Co., a Chicago plumbing-ware firm, has filed a similar suit.

Michigan has 5,203 automotive retail outlets, motor vehicle dealers and independent repair shops.

## Court Upholds Bequest to Rockford College

ROCKFORD, Ill. — A \$16,000 trust fund bequest to Rockford college, providing that its income be used for books and supplies not in conflict with "our American way of life" before the inauguration of President Franklin D. Roosevelt, was upheld in court.

The bequest was made by Mrs. Mabel Herrick of Rockford.

Miss Jennie Walker, a sister of Mrs. Mabel Herrick, had filed a protest on grounds that the college could not qualify because its trustees on numerous occasions have said that study at the college is devoted to the "best thought" of the world without limitation to the pre-Roosevelt era.

However, Probate Judge Walter Dixon ruled Tuesday that if the college does not use the fund as set forth in Mrs. Herrick's bequest, a later suit can be filed. The bequest is legal as it now stands, he said.

## Indians Get Carrasquel, Busby from White Sox in Trade for Lary Doby

CLEVELAND (AP)—General Manager Hank Greenberg today described the acquisition of slick-fielding Chico Carrasquel and Jim Busby in exchange for slugger Larry Doby as "only round one" in his efforts to strengthen the Cleveland Indians.

"We don't have anything on the fire right now, but we're going right back to work this morning," Greenberg said. "We realized we had to do something drastic but we felt we had to make the improvement we did."

The first major trade of the winter season apparently solved five-year problems for both the Indians and Chicago White Sox. The Indians have been searching in vain for a first-rate defensive shortstop since Lou Boudreau left them in 1950, while the White Sox have been looking for a slugger of Doby's caliber since the same year when Gus Zernial hit 29 homers for them.

Carrasquel, a 27-year-old native of Caracas, Venezuela, is generally regarded as the most spectacular—although sometimes erratic—defensive shortstop in the majors. Carrasquel hit only .257 last season but has a six-year big league mark of .284, including a top of .292 in 1950.

Busby, 28, is also a brilliant fielder but he hit only .229 last season and has hit only 27 home runs in six big league campaigns. He came up originally with the White Sox in 1950 and was traded to the Washington Senators in 1952. The White Sox got him back in a mid-season deal this year.

In obtaining Doby, both Vice President Chuck Comiskey and Manager Marty Marion of the White Sox declared "the end" of our search for a No. 4 hitter.

He will play centerfield and

will bat fourth," they said.

The 31-year-old Doby, first Negro to play for the Indians, batted .291, hit 26 homers and drove in 75 runs this year. He has a nine-year big league batting average of .286 and has hit 202 homers while driving in 731 runs. He led the league with 32 homers in both 1952 and 1954 and also topped the circuit with 126 runs batted in last year.

The deal was the first made by the White Sox since Comiskey took over from Frank Lane and the first between Cleveland and Chicago since the White Sox obtained Minnie Minoso in a three-cornered deal on April 29, 1951.

## NCAA Penalizes St. Louis U., Baylor, Wichita

CHICAGO (AP)—The National Collegiate Athletic Assn. has penalized three schools—St. Louis University, Baylor and Wichita—for violation of regulations on athletic practices.

St. Louis was placed on probation for one year on charges that it gave a prospective athlete more financial aid than is permitted by the Missouri Valley Conference and the NCAA.

Baylor and Wichita were reprimanded for providing transportation for several athletes to visit their institutions.

The penalty against Baylor and Wichita was the lightest on the scale used by the NCAA. President Clarence P. Houston announced recently that penalties would become more severe on cases arising after June 15 of this year. None of these cases began after this date.

The action against St. Louis, Baylor and Wichita increased to 25 the number of institutions which have been punished by the association since the current enforcement program began in January, 1952. Sixteen other cases are pending.

## Picking the Grid Winners IN THE Sport Parade

By BILL MELTON

For the past several weeks this column has given a brief review of games played over the past years with the school Harrisburg meets in football on the following Friday.

This week Harrisburg meets Wood River, a newcomer on the HTHS grid schedule, so there is no series of games to review. However, this is Homecoming at HTHS so we will attempt to review some of the highlights of past homecoming celebrations at Harrisburg.

1954—Centralia spoiled the foot ball end of the homecoming by winning 39-6, but a good time was had by all, generally speaking.

Polk, quarterback, scored Harrisburg's lone TD on a two-yard plunge. Norma Simpson was crowned Homecoming Queen.

1953—Mt. Vernon edged past the Bull Dogs 7-6 in a thrilling ball game. Kryger of Mt. Vernon scored in the opening part of the game and Shields kicked the point. Harrisburg scored TD on a Tony Beal to Marshall Landis pass, but the extra point try failed. Eugenia Gollifer was Queen.

1952—Harrisburg lost a 14-6 decision to Centralia. The HTHS TD was scored on a nine-yard pass from Arthur Hinant to Ronny Riegel. Shirley Aldridge was Queen.

1951—This was the year Harrisburg walloped the Bishop DuBois team 69-0. The Bull Dogs scored ten TDs and just about everyone got into the act. Hinant scored one and passed to Shewmake for another. Shewmake also scored on a run, Guard and Cavins crossed the goal line twice and Dalton, Howard, and Hays each scored once. Dixie Lou Brothers was Queen.

1950—Harrisburg made homecoming a gala affair with a 34-7 victory over Herrin. Conover scored one TD and started a pass that went to Stout and then to Ziegler for a score. Raley raced for a TD and Herrmann plunged for two. Georgia Miley was Queen.

1949—the football game, with Taylorville the opponent, was a defensive game with neither team scoring. As the lady seeing her first game said "We might as well stayed at home, nothing happened." when she saw the scores listing the final as 0-0. Ann Wilson was Queen.

1948—Another lopsided score with Harrisburg on top. The locals walloped Marion 55-0. Vander Pluym scored three TDs and Ashe, Reper, Pavlonis, Jordan and Azar each scored one. Joan Keith was Queen.

## Help Wanted

## By V. T. Hamlin

Edmonton, Alberta, before 1900 was little more than a trading post. Now, in the grip of an oil and natural-gas boom, it is one of Canada's fastest-growing cities. Each month 1,200 new residents add to the population, already beyond the 200,000 mark.

A strong young male elephant is worth East Pakistan from \$800 to \$1,400, says the National Geographic Society.

### Red China Claims Portuguese Colony of Macao

HONG KONG (UPI)—Communist China laid claim today to the 400-year-old Portuguese colony of Macao and warned that Portugal's "continued occupation" of the Chinese coastal territory can no longer be tolerated.

The UE members walked out at 10 plants at midnight after union officials accused the company of demanding a "five-year blackout on collective bargaining." Company spokesmen said union members began picketing plants here and at Derry, Pa., at the strike deadline.

When the company-wide strike call came, about 7,600 UE members already were off the job at South Philadelphia and Jersey City, N. J., plants. They had walked out Oct. 14 in protest against an alleged company plan to cut wages, reclassify jobs and demand incentive work at day work rates.

The move came 10 days after the CIO union pulled its 44,000 members out of 30 company plants also as a result of a wage dispute. Both unions had rejected a company offer of a five-year contract which graduated annual pay increases totaling 23½ cents an hour.

The unions have demanded one-year contracts with a 15-cent hourly pay boost. A company time-study program also had been a subject of the negotiations.

### Mother Locates Two Sons After 17 Years

OMAHA, Neb. — Mrs. Alice Crosby has been reunited with two sons who were taken away from her 17 years ago and left in a boy's home in Iowa by their father.

Mrs. Crosby, who worked hard to support five other children from a previous marriage, said she never had the opportunity to trace the boys, who were two and four years old when they disappeared.

Recently she was notified that they were released from the home in which they grew up, and that one son, Verne, 19, was hospitalized at Iowa City for an operation.

## Lucas Says He Is Considering Race for Senate

WASHINGTON — Former Senate Democratic Leader Scott W. Lucas said today he has told Illinois Democratic leaders that he is "seriously considering" making a bid next year for his old Senate seat.

Lucas was defeated in 1950 by Sen. Everett M. Dirksen (R-Ill.). He had served 4 years in the House and 12 in the Senate and 2 years as majority floor leader during the Truman administration.

He told a reporter that he has been "scouting around" Illinois and that he attended eight meetings last week with downstate party leaders. He said they indicated he regarded him as the strongest potential Democratic candidate for the 1956 senatorial race against Dirksen. He also said that he has been endorsed by all Democratic county chairmen in his old congressional district.

As a result of these talks, Lucas said, he has told party leaders in the state that he is seriously considering a try to regain his Senate seat. He would not indicate, however,

ever, how soon he expects to make a firm decision.

He is waiting to see what the state Democratic organization and the Cook county (Chicago) organization do about endorsing candidates for the primary elections next year. And he wants to know what the makeup of the state Democratic ticket is likely to be.

He expects to make further scouting trips in Illinois in the next few weeks and to be on hand for the Democratic National Committee meeting at Chicago, Nov. 19. Since his 1950 defeat, Lucas has been engaged in private law practice in Illinois and Washington.

### One Twin Knows When Other is In Trouble

BISMARCK, N. D. — Mrs. Pat Crotty was feeding her three-year-old son when he said his twin brother was crying and needed him.

At the same time, a motorist stopped his car and jumped into the Crotty car, which the other boy had started rolling downhill by releasing the emergency brake.

Mrs. Crotty was so flustered she didn't get the man's name. But she had a word about her son.

"That kid must be psychic," she said.

### Downstate County Chairman Expected to Replace Miley

By DON E. CHAMBERLAIN  
Daily Register Correspondent

SPRINGFIELD, Ill. — (Special) Another downstate county chairman will replace Robert G. Miley, Galatia, as president of the Illinois Republican County Chairmen's Association when he takes over the office of state supreme court marshall Nov. 1. Miley is expected to resign the chairmanship as he leaves his present office of state park superintendent to be sworn in as marshal.

Miley will replace Harry Peoria, Peoria, who died early this month. He will give up a higher

paying job for one paying \$500 less per year but he will have more permanency in the new post. The high court seldom makes a change in personnel and Miley will have more time in his new capacity to supervise his farm near Galatia, and his motel and bond-investment business in Harrisburg.

The post of marshal was offered Miley on Oct. 5, when the full supreme court was here for Newman's funeral. Justices Ralph Maxwell, Nashville, and George Bristol, Paris, are said to have phoned Miley and asked him to appear before them. When they offered him the post he said he would accept it if Gov. William G. Stratton approved. The Governor approved last week.

Miley has been a powerhouse in state Republican politics and there is some doubt as to whether he will completely divorce himself from some of his political activities especially as there are five Republican justices against two Democrats. It's possible he may act as a sort of campaign manager for Republican justices as they seek re-election in the future.

Downstate possibilities as successor to Miley as president of the county chairmen's association are vice presidents Albert S. Clarke, Bushnell; McDonough, county chairman; Association Secretary Glenn Palmer, Yorkville; Kendall county chairman and state conservation director; and L. C. (Jack) Martin, Champaign county chairman.

Edward F. Moore, Chicago, Cook county chairman, is first vice president but the office of association president has always been considered downstate's. Two other listed vice presidents are Conrad F. Becker, Red Bud, Randolph county chairman, federal housing administrator for southern Illinois; and State Supreme Court Justice Charles H. Davis, Rockford, Winnebago county chairman.

# Huge Machines Used to Reclaim Strip Mine Land

SPRINGFIELD — Four of the world's biggest strip mining machines are being used in Illinois to reclaim agricultural purposes land which has been stripped for coal.

L. S. Weber, reclamation engineer for the Illinois Coal Strippers Assn., said the machines were developed for the dual purposes of increasing strip mine efficiency and improving land reclamation. The machines, 1,000-ton giants 40 feet high, were developed by the United Electric Coal Co. United operates two of them in Fulton County and a third in Perry County.

Traux-Trauer Coal Co. operates a fourth machine at Fiaett. They are the only such machines in use in the United States.

The machines are called wheel strippers and they run much like an over-sized ditch-digger.

## 1,000 Yards an Hour

Placed over an underground coal bed some 70 feet down, the machines chop through 30 or 40 feet of the overlayer. Their power shovels take over.

The earth and subsoil deposits dug up by the machines are carried 350 feet on a belt conveyor to be deposited atop a ridge left from earlier stripping operations. The earth is moved rapidly, about a thousand yards an hour.

Value of the machine for reclamation purposes, Weber explained, is that "it keeps the top soil on top, without mixing it too much with the rock and other strata from great depths."

Weber said close to 3,000 acres of land is strip-mined each year in Illinois, and this produces about 30 per cent of the state's total coal output.

Most of the land is bought outright by the producing companies. Much has been reclaimed, and many of the coal companies have large scale farming operations, like the 8,000-acre Little Sister Coal Co. farm in Fulton County.

## Reclaimed for Pasture

Weber said large sections of reclaimed land not leveled by bulldozers and drag lines to permit farming is reclaimed sufficiently for pasture use.

The coal strippers group is an association of strip mine companies. One of its primary purposes is to encourage reclamation of strip mine land.

"Illinois has no law requiring reclamation of strip mined land, and we try to make sure that such a law is not needed," Weber said.

Weber said about 8,000 acres of reclaimed but ungraded land has been seeded to pasture, plus another 7,000 acres of partially graded land.

Biggest scars left from the mining operations are the "final cuts," last of the big excavations made on a coal seam. The earlier cut are refilled as the operations proceed.

These final cuts, along with haulage roads entering them, are being converted into lakes. In Fulton County alone are more than 700 acres in deep water lakes, most of it stocked with fish.

# Stevenson Most Likely to Be Democratic Candidate, Public Opinion Survey Shows

By LYLE C. WILSON  
United Press Staff Correspondent

WASHINGTON — Adlai E. Stevenson apparently has a big bulge over all comers in the Democratic Party whereas Republicans have not yet swung in large numbers to any 1956 presidential favorite.

That statement is based upon an unusual sampling of political opinion just completed by the United Press.

Fifteen United Press bureaus, each suitably located geographically, participated in this sampling. Each asked a given number of representative individuals to state who they believed to be at this time the most likely presidential candidates next year—assuming that President Eisenhower does not run.

It was stipulated that these individuals name not their own favorites but the persons they think most likely as of now to win the respective nominations.

The United Press polled 100 men in most fields of adult activity (there will be a later sampling of women's opinion).

## Nixon is Top Man

Reflecting the likely scramble for position in the GOP if Mr. Eisenhower steps aside, 13 Republicans received varying numbers of "first choice" votes. There were only six Democrats sharing

"first choice" votes.

Here, at a glance, are the leaders in the polling:

### DEMOCRATS

Adlai E. Stevenson, 55.  
Averell Harriman, 31.  
Estes Kefauver, 5.

### REPUBLICANS

Richard M. Nixon, 36.  
Earl Warren, 25.

Thomas E. Dewey, 6.

Milton S. Eisenhower, 6.

William F. Knowland, 5.

Those polled represent a cross-section of Americans. Edward Budd Jr., president of Budd Co., Philadelphia, is typical of the industrialists contacted. Paul Amidon, former superintendent of schools, St. Paul, Minn., was among the teachers, a group which included seven university presidents. There was 1 opera director, 17 labor leaders, a hotel chef, a dozen farmers, 15 company executives.

Other Republicans getting "first choice" votes were Knowland and Gov. Goodwin J. Knight, both of California; Secretary of Treasury George M. Humphrey, Ohio; Secretary of State John Foster Dulles, New York; special presidential assistant Harold E. Stassen, Minnesota and Pennsylvania; FBI Director J. Edgar Hoover, District of Columbia; Ambassador Henry Cabot Lodge, Massachusetts; Atty. Gen.

Herbert Brownell Jr., New York, and Gov. Christian A. Herter, Massachusetts.

### SNAPPY DECISION

MILWAUKEE — A policeman testified in district court that a cocker spaniel owned by Mrs. Jean Smith had bitten four children.

"What's the dog's name?" Judge Robert W. Hansen asked Mrs. Smith, who had pleaded guilty to a charge of harboring a vicious dog.

"I can't think of it," she replied. "I'll give it one—Snappy," the judge said.

He gave Mrs. Smith two weeks to get rid of the dog.

### TECHNICAL PROBLEM

Lubbock, Tex.—(NEA)—Replacing Carl Ince, best "little" man in Texas Tech annals, is the biggest basketball problem at Texas Tech.

Though often denounced for destroying birds, the skunk aids man by eating vast hordes of cutworms, potato beetles, white grubs, and other crop ravagers.
